Trimline Opal

Be different and choose a round gasstove

Trimline Opal

The standard version of the Opal has our Log Burner technology and an anthracite steel interior. On top of that, it comes with the Ecomax remote control and you have the options of adding Wi-Fi-control with our Trimline Fires app.

Over 180 degrees view

The Trimline Opal is proof you making a statement is not so hard. This round gasstove burns so nice and with its amazing rounded glass you have a wide look on the flames. Perfect for every interior. It adapts perfectly. Here's to many enjoyable memories!

Optionals

- LED glowing fuelbed
- Black glass interior
- Mains adapter GV60
- Wall bracket
- Domotica smart connection
- Wall switch
- Wi-fi control
- Puck control

Appliance name	Trimline Opal			
Appliance type	Balanced flue freestanding gas fire (C11, C31, C91)			
Purpose	Ambient heating, real flames			
Engine identification	1121			
Gas type -pressure	**Natural gas G25.3 – 25 mbar**	**Natural gas G20 – 20 mbar**	**Natural gas G25 – 20 mbar**	**LPG G30/31– 28-50 mbar**
Heat input (kW)	6.9	6.9	5.6	6.2
Heat output max (kW)	5.1	5.5	4.3	5.0
Heat output min (kW)	1.6	1.6	1.3	2.8
Consumption (m3/h and kg/h LPG)	0.8	0.7	0.7	0.2
Efficiency (%)	78	79	77	84
Energy label highest efficiency	C	C	C	B
Flue lay out wall termination	Direct NG only and indirect 1m vertical and max 2.5m horizontal			
Weight (kg)	75			
Efficiency class EN613	1			
NOX Class	5			
PIN ID CE	0461CV1128			
Gas connection	Gas connection			
Electrical connection	6VDC battery powered			
Gas control system	Mertik Maxitrol SYMAX B6R radio controlled 866 mHz			
Safety	Thermocouple flame supervision and pressure hatches			
Heat distribution	Internal convection system			
Connectivity	Optional App control (Android and IOS), wall switch and domotica connection			
Flue type and diameter	Holetherm-CC Deco concentric flue 100-150mm			
Standard supplied	Adjustable legs – Convection chamber and grills – Wall brackets – Log set			

Installation details

Concentric flue Deco system

Using the THC-CC Deco double wall chimney system the flue gases are safely transported to the outside and fresh combustion-air is pulled inside the appliance. Balanced flue appliances can be installed using a wall terminal so no traditional chimney is needed. THC-CC Deco is made of high quality stainless steel and approved according CE standards in combination with the Trimline appliances.
