# About Devaux

Custom high-end decorative metalwork

Founded in 1946 and based in Saint-Michel-sur-Meurthe in the Vosges mountains, Devaux has been crafting high-quality metal components with exceptional expertise for decades. Their products are renowned for combining durability, functionality, and elegant design, reflecting a long tradition of craftsmanship.

Every piece is carefully manufactured, using premium materials, precise assembly, and rigorous quality control to ensure the highest standards.

Through our collaboration with Devaux, DHK Products proudly offers reliable, stylish, and long-lasting solutions that combine traditional craftsmanship with modern design.

# Outdoor unit covers

Devaux air conditioning covers are designed and manufactured in the Vosges region of France.

Our products are rooted in artisanal expertise and an industrial structure.

Lifetime warranty

100% PEFC Pine Vosges forest

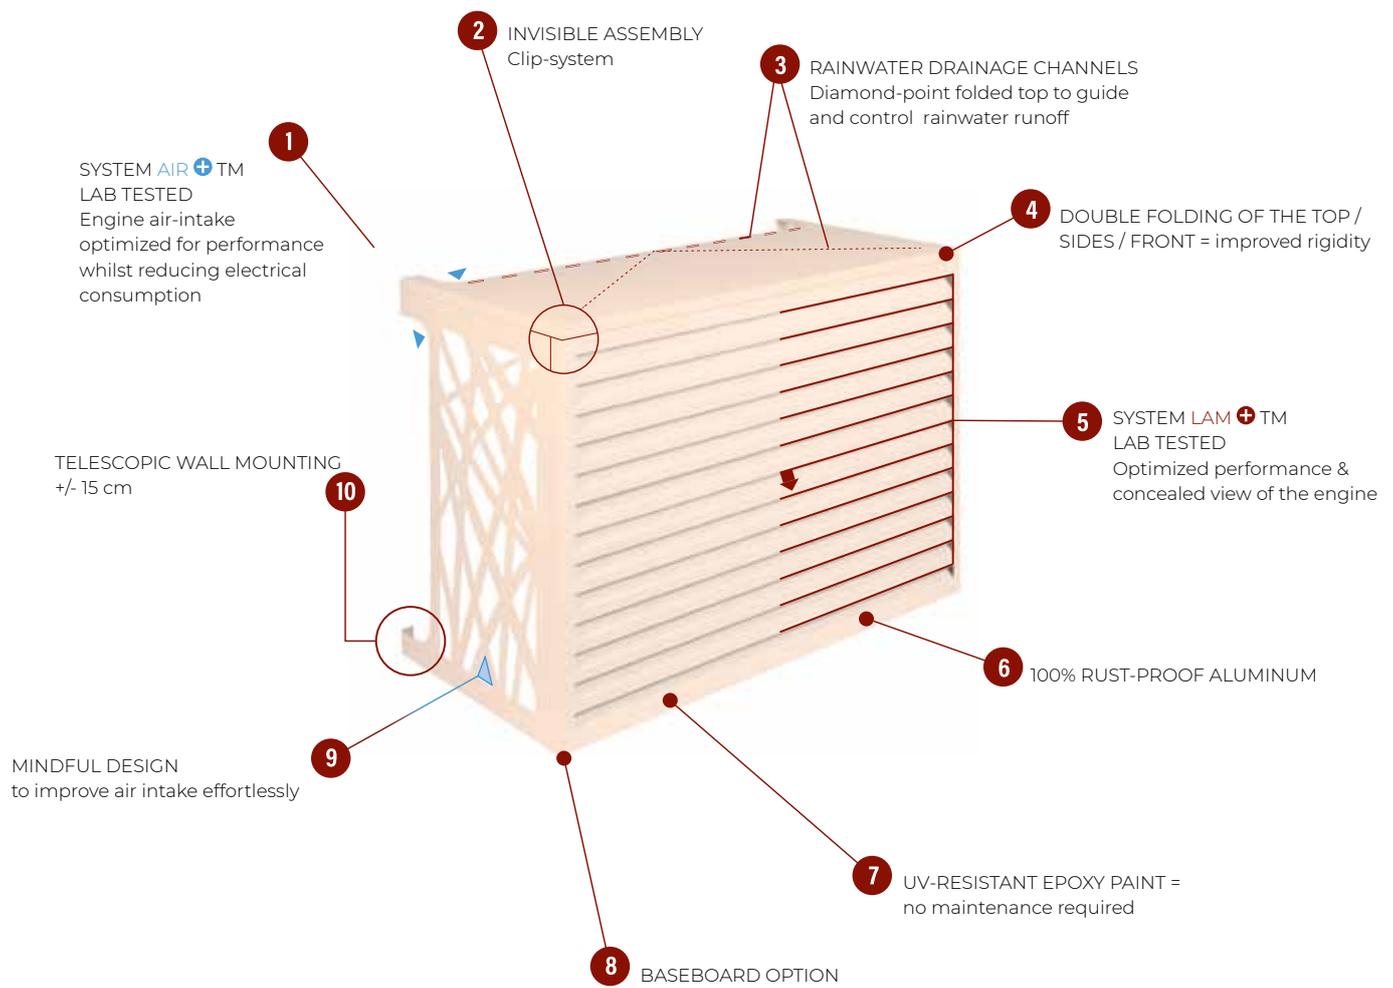

100% aluminum

Special UV-resistant paint

## Why choose a devaux air conditioning cover?

## Products +

### QUICK & EASY ASSEMBLY

Simple and efficient installation in less than 2 minutes + mounting. Follow the instructional video to easily install your air conditioning cover!

### MAINTANANCE-FREE & EASY TO DISASSEMBLE FOR SERVICE-RELATED PURPOSES

Easy to disassemble to access your air conditioner / heat pump engine unit during maintenance.

### PROTECTS CHILDREN & ANIMALS

Ensure the safety of your children and pets by installing a completely secure air conditioner cover that keeps them away

### PROTECTS AGAINST IMPACTS & WEATHER CONDITIONS

Rainwater channeling with folds and drainage holes. Reduces engine fouling

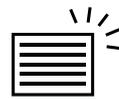

### CUSTOM SIZES & COLORS

SIZES :

**XS S M L XL 2XL 3XL 4XL**

see page 19  
or custom-made

STANDARD COLORS :  
cream RAL9001 or anthracite grey RAL7016

### CAMOUFLAGES THE UNIT WITHOUT IMPACTING AERODYNAMIC PERFORMANCE

The installation of a Devaux air conditioning cover ensures a discrete integration of a heat pump into the environment without impacting its performance.

Compatible with major air conditioner brands

## STABILIZATION

Add our stabilizing solutions  
Recommended for wind-exposed sites

Cube + Planter option 50 x 50 x 50 cm  
for adding greenery and  
stabilizing your installation.

Mounting-kit includes

- ▶ 1 aluminum baseplate
- ▶ 1 stainless steel cable, 2 m long

## ACOUSTIC PERFORMANCE

Reduction up to 10 - 15 dB  
at 1 m, 5 m, and 10 m

The acoustic cube doesn't eliminate noise, but it protects an area by creating an acoustic shield. The installation must be designed around the motor and allow access for maintenance, to protect the critical area and ensure sufficient air circulation. The noise emission of a heat pump in heating mode is around 60dB.

Results obtained through real-world expertise, varying depending on the installed motor brand, its frequency, and its environment.

## INSTALLATION

Speed, simplicity, and modularity!

## TECHNICAL INFORMATION

Aluminum cubes

Combine as desired to protect an area from the noise generated by a heat pump motor

- ▶ Aluminum cubes with textured EPOXY paint for a sturdy, rust-resistant product.
- ▶ Soundproof insulation made of rock wool, lined with a geotextile fabric to protect the insulation and allow the product to remain outdoors all year round.
- ▶ Mounting-kit (optional) for anchoring to a wall, the ground, or directly onto the heat pump.

## We are DHK

DHK Products is a trusted full-range supplier of accessories and installation supplies for the stove and fireplace industry. We serve professionals — including installers, specialist fireplace retailers and chimney sweeps — as well as consumers, with a complete and carefully curated product range, available directly from stock. This ensures fast delivery, continuity, and consistent quality.

By offering everything under one roof, DHK supports trade professionals with reliable, high-quality products that make installation and maintenance work more efficient and worry-free. Our focus on long-term partnerships, purchasing advantages and an efficient supply chain allows craftsmen to work with confidence, while end users benefit from comfort, safety and ease of use.

## Part of a larger collective

DHK Products is part of the IHS Group, where the strengths of six powerful brands come together. This collective enables us to provide customers with innovative, high-quality, and sustainable solutions, while benefiting from shared expertise, combined purchasing power, and optimised logistics.

Within the IHS Group, we continuously invest in the sustainability of our product portfolio and production processes, and in building long-term partnerships with our customers and business partners.
